CLAMP BRACKET - FOR P 261-AMT SYSTEMS VARIO SYSTEM

The **Pan Vario System** from the **Pan Accessories series** is a mounting system for mobile use and flexible mounting.

The **Vario clamp bracket for P 261-AMT systems** is attached to the Pan AMT 261-AMT | Cine or Pan AMT 261-AMT | Event without the use of tools.

A mounting block on the back with different attachment points offers various mounting options for mini TV spigots, TV spigots, half couplers or the **Vario System tripod mount**, etc.

The bracket consists of two parts that hold the loudspeaker by means of a clamping mechanism. The clamping mechanism is locked by two locking bolts. The bracket can be used both horizontally and vertically.

The **Vario clamp bracket** is designed for the secure mounting of loudspeakers on tripods, lighting hoists or trusses.

The accessory is made of steel and can be powder-coated to match the colour scheme of the loudspeaker.

EQUIPMENT / OPTIONS

See last page for explanation of the symbols.

APPLICATIONS

Tripod, hoist and joist mounting
