PAN EVAC P 08-EN54 - PASSIVE LINE ARRAY

The **Pan EVAC P 08-EN54** is a passive line array in an attractive compact column design for speech and music applications in EN 54 systems. It is characterised by precise and natural reproduction.

The loudspeaker contains eight 3.5'' HQ drivers. The enclosure is made of aluminium and can be custom-finished in any colour.

The chassis are protected from external impact by a perforated metal sheet that is integrated into the design. At the back of the **Pan EVAC P 08-EN54** there are two cable gland connectors. The mount supplied is installed in the slot on the back.

Illustration in colour option, see mechanical properties

FEATURES:

High efficiency, 100 V connection, selectable power tap: 125 W, 62 W, 32 W, 15 W, switchable high-pass filter (HPF), integrated protection circuit, high reproduction quality even in acoustically demanding environments, slim, unobtrusive design

All **Pan EVAC** loudspeakers are designed, developed and manufactured in Germany by Pan Acoustics from high quality materials and according to strict criteria.

APPLICATIONS

Churches, museums, live PA, train stations, airports, sports facilities, legislative buildings, conference rooms, lecture halls, shopping centres, A/V presentation rooms

All products are designed, developed and manufactured by Pan Acoustics in Germany. Pan Acoustics reserves the right to modify products without prior notice.

TECHNICAL DRAWING PAN EVAC P 08-EN54

Doc. no.: 01683.V1 - 12-2022 [translation based on German version]

EQUIPMENT / OPTIONS - PAN EVAC SERIES

Customised painting/colouring within the RAL colour range. Other colour ranges such as RAL design, Pantone, etc. available on request.

100 V audio inputs with selectable power taps.

Weatherproofing of the loudspeakers

Accessories such as wall, tripod and ceiling mounts, different interfaces, connection cables, weather protection hoods and connection sets are available.

Ball impact resistance

Looks good, sounds good.

Pan Acoustics' products are defined by natural sound and attractive design.

Some equipment features cannot be combined. For information about which features can be combined with each other, please send an e-mail to sales@pan-acoustics.de.

Our quality promise

Pan Acoustics stands by its products and gives up to 10 years warranty on its loudspeakers for any material or manufacturing defects. New products manufactured in accordance with protection classes IP54 and IP65 as well as digital audio interfaces (Dante®) from Audinate Pty Ltd and rechargeable batteries are excluded from the 10-year warranty. A warranty period of 3 years is granted for loudspeakers in accordance with protection classes IP54 and IP65.
