## APPLICATIONS

Churches, museums, train stations, airports, legislative buildings, conference rooms, lecture halls, surround, A/V presentation rooms, immersive sound

The **Pan AMT P 04-AMT | RJ** is a passive full-range line array (D'APPOLITO) in an attractive compact column for speech and music applications. It is characterised by a high level of fine detail and excellent resolution even at the highest frequencies. Thanks to its integrated RJ45 socket\*\*, this loudspeaker can be very easily used in buildings with structured cabling.

The loudspeaker contains four 3.5" HQ drivers and a specially developed **AMT tweeter unit from Mundorf**. The enclosure is made of aluminium and can be custom-finished in any colour. The chassis are protected from external impact by a perforated metal sheet that is integrated into the design.

At the back of the **P 04-AMT | RJ** there is an RJ45 socket with special wiring for the low-impedance audio signal connection. The optional mounting accessories (wall, ceiling and tripod mounts) can be installed by inserting a slot nut in the lateral slots and the rear slot. The **P 04-AMT | RJ** can be optionally ordered with or without U-bracket.

The **P 04-AMT | RJ** can be operated individually or in combination with the P SW-108 | RJ from the Pan Subwoofer series.

## FEATURES

High efficiency, integrated protection circuit, high reproduction quality even in acoustically challenging environments, sleek, unobtrusive design.

## MOUNTING ACCESSORIES

For the **Pan AMT** series, there is a wide range of mounting accessories for fixed installation and mobile use.

All **Pan AMT** loudspeakers are designed, developed and manufactured in Germany by Pan Acoustics according to strict criteria and with high-quality materials.
